

Laboratory Automation Basic Training

Enrollment Form

A full-day training course which familiarizes the scientist with types and uses of laboratory automation, terminology and methods of automated liquid handling, optimal aspirating/dispensing techniques, reagent and chemical compatibility, validation/QC testing, and proper decontamination. The highlight of the training is hardware and software demonstration and hands-on use of actual liquid handling robots. A practical test is given at the end of the course and those who pass are issued a certificate of completion.

Location: The course is taught in Madison, Wisconsin, at the Global Genetechs headquarters and repair shop located at 715 Post Road (behind Epicentre). Onsite training is available for groups of 6 or more.

Cost: Tuition is \$995 per student. Group rates, academic and government discounts are available. Lunch is included with vegetarian needs considered.

50% of tuition is due with registration and the remainder due 1 week before the session starts.

Check date of session you wish to attend:

- January 30, 2010
- February 20, 2010
- March 20, 2010
- April 17, 2010
